

LAB TESTS for Dr. Savely

Tests that may be performed before the first visit

THE FOLLOWING TESTS MUST BE DONE AT IGeneX, Inc.:

The following tests MUST be performed at IGeneX Laboratories. No other lab is acceptable. Please call them at 1-800-832-3200 and ask for a “blood test kit” which they will mail to you. Everything you need will be with the kit. Take it with you to your health care provider’s office and ask your provider to complete the requisition form with you. These tests must be paid for upfront by check or credit card and can later be submitted to your insurance under “out of network” costs.

Medicare Patients. If you have Medicare Insurance that is NOT operated by an HMO, then check off the following tests on the requisition form:

Test #6050	Complete Lyme Panel
Tests # 200 , 663 and 720	Babesia tests
Tests # 285 and 280	Bartonella tests
Test # 770	HME PCR
Tests # 206 and 775	Anaplasma
Tests #965 and 998	Rickettsia

Non-Medicare patients or those whose MC is operated by an HMO, have your provider draw one tiger-top tube and one lavender-top tube and order the following tests:

Test # 4090	Basic Lyme Panel
Test #5090	Complete Co-infection Panel
Test # 720	B. duncani IgG and IgM Ab

For all the IGeneX tests you can use the ICD9 code of 088.81

THE FOLLOWING TEST MUST BE DONE AT EITHER LABCORP LABORATORIES OR IGENEX:

LABCORP Test # **505026** HNK1 (CD57) Panel Use ICD9 code 088.81

or.....

IGENEX Test # **275** CD 57

This test must not be refrigerated and has to be sent out the same day it was drawn.

TESTS THAT CAN BE DONE AT ANY LAB
